ELSEVIER

Toxicology 168 (2001) 279–284

TOXICOLOGY

Contents of volume 168

Contents of Volume 168 No. 1

Special Issue

Abstracts of the British Toxicology Society Annual Congress, Keele University, Staffordshire, UK, June 10–13th, 2001

Edited by C.J. Waterfield

Call for Abstracts I

Editorial 1

List of Authors of the Abstracts of the BTS Annual Congress, Keele University 10–13 June, 2001 3

The Paton Prize Award

The Discovery of the Debrisoquine Hydroxylation Polymorphism: Scientific and Clinical Impact and Consequences
Robert L. Smith 11

Young Investigators Award

Tamoxifen—Risks and Opportunities
Elizabeth A. Martin 20

Invited Speakers' Abstracts

Risk Factors for Colorectal Cancer
D. Timothy Bishop, Ann G. Zauber (Leeds, UK; New York, USA) 28

Mechanisms of Action of Genotoxic Carcinogens Associated with Colorectal Cancer
J.H. Weisburger, E.S.Fiala, O.S. Sohn (Valhalla, NY, USA) 29

The Molecular Genetic Basis of Colorectal Cancer: It Takes Two (Signal Transduction and Genetic Instability) to Tango
Riccardo Fodde (Leiden, The Netherlands) 30

Cancer Epigenetics in Colorectal Cancer
J.G. Herman, M. Esteller (Baltimore, MD, USA) 30

Pharmacogenetics, Polymorphisms and Susceptibility to Colon Cancer
C. Roland Wolf (Dundee, UK) 31

Principles of Chemoprevention
J.D. Hayes, M. McMahon, C. Bonnesen, L.I. McLellan, C.R. Wolf, K. Itoh, M. Yamamoto (Dundee, UK; Tsukuba, Japan) 31

Dietary Contribution to the Incidence of Colorectal Cancer
John H. Cummings (Dundee, UK) 32

Role of COX-2 in Colorectal Carcinogenesis and Chemoprevention
C. Paraskeva, D.J.E. Elder (Bristol, UK) 33

The Prevention of Acute and Chronic Solvent Exposure
Nerys Williams (Birmingham, UK) 34

Nickel Carbonyl Exposure—Can Diethyldithiocarbamate or Disulfiram Prevent Toxicity?
Sally M. Bradberry (Birmingham, UK). . . . 36
Cyanide Antidotes: from Amyl Nitrite to Hydroxocobalamin—Which Antidote is Best?
J.A. Vale (Birmingham, UK) . . . 37
Occupational Health Measures for Prevention of Occupational Cancer
T.C. Aw (Birmingham, UK) . . . 38
Clinical Investigation and Prevention of Occupational Asthma
Jon Ayres (Birmingham, UK) . . . 39
The Regulatory Scene: What's New for Toxicologists?
Steven Fairhurst (Bootle, UK). . . . 39
Setting Standards for Workplace and Environmental Exposures: Toxicological and Philosophical Issues
H. Paul, A. Illing (Manchester, UK) . . . 40
Strategies for Action; Prioritising Industrial Chemicals
Carol Courage, Raquel Duarte-Davidson, Alex Capleton (Leicester, UK; London, UK) . . . 41
Accidents Involving Industrial Chemicals: Roles for Toxicology in Emergency Response and Health Surveillance
David Russell (Cardiff, UK). . . . 42
The Weston Village Incident—A Case Study of the Public Health Implications of Low Level Exposure to Hexachlorobutadiene
D.G. Farrar (Cheshire, UK) . . . 43
Predicting Human Toxicity from Animal Models
Kevin Park (Liverpool, UK). . . . 44
Ecstasy and Hepatocellular Damage
J.A. Henry (London, UK) . . . 45
Veno-Occlusive Disease
P.C. Hayes (Edinburgh, UK) . . . 45
Troglitazone—Lessons on Hepatotoxicity
J. Michael Tredger (London, UK) . . . 46
Acute Liver Failure
Julia Wendon (London, UK) . . . 47
2D Electrophoresis of Liver Proteins: Application to Characterize an Unusual Drug-induced Hepatomegaly in Rats
Stephen J. Newsholme, Beverly E. Maleeff, Sandra Steiner, N. Leigh Anderson, Lester W. Schwartz (King of Prussia, PA, USA; Rockville, MD, USA) . . . 48
Discovery and Validation of Novel Biomarkers of Drug Toxicity Using ProteinChip® Technology
Huw Davies (Surrey, UK) . . . 48
Gene Array on an Academic Budget! How Do They Do It?
Ian A. Cotgreave (Stockholm, Sweden). . . . 49
Compiling a Gene Expression Reference Database Using Multiple Platforms
Michael S. Orr, Mark Porter, Arthur Castle, Michael Elashoff, Kory Johnson, Donna L. Mendrick (Gaithersburg, MD, USA) . . . 50
Application of Toxicogenomics in Practice—The ILSI Collaboration on Genomics in Risk Assessment
Lutz Müller, Salah-Dine Chibout, Hans-Joerg Martus, Frank Staedtler, Alison Vickers (Basle, Switzerland; East Hannover, USA) . . . 51
Shellfish Toxins and UK Issues; an Overview
Susan Gallacher (Aberdeen, UK) . . . 52
Developmental Consequences of Organochlorine Compounds in Maternal Diets
Hestien Vreugdenhil, Nynke Weisglas-Kuperus (Rotterdam, The Netherlands) . . . 52
Developmental Neurotoxicity—Regulatory Aspects
Ian C. Dewhurst (York, UK) . . . 53
Making Sense of Psychological Test Data—Camelford, The Gulf War and Sheep Dips
Anne Spurgeon (Birmingham, UK). . . . 54
Using Proteomics to Find New Targets for Organophosphates
Paul Richards (Leicester, UK). . . . 54

Oral Communication Abstracts
Foetal Rat Lung Epithelial (FRLE) Cells: Alterations in Gene Expression in Response to Paraquat
K. Ridd, D.J. Alexander, C.J Reed (Liverpool, UK; Hertfordshire, UK) . . . 55

The Nematode *Caenorhabditis elegans* as a Model System for Studying Mechanisms of Toxicity
Christopher J. Mee, David I. de Pomerai, Peter N.R. Usherwood, David R. Bell (Nottingham, UK) 56
Elucidating the Mechanism of the Skeletal Muscle Toxicant 2,3,5,6-tetramethylphenylenediamine: Studies Using Isolated Mitochondria
J.A. Blair, T.E. Bates, C.J. Waterfield, R.M. Lightfoot, A. Rowlands, J.A.Turton (Hertfordshire, UK; London, UK). . . . 57
Non-Steroidal Anti-Inflammatory Drug Induced Toxicity Initiates Changes in Polyamine Metabolism T are Independent of Cyclo-oxygenase-2 Expression
Alun Hughes, Heather M. Wallace (Aberdeen, UK) 58
Quantification of Rat Cytochrome P450 Induction in vivo using Real-Time PCR Detection
S.J. Lucas, P.R. Murdock, A.D. Ayrton, R.J. Chenery, G.M. Hawksworth (Aberdeen, UK; Essex, UK; Hertfordshire, UK, Aberdeen, UK) 60
Identification of a Key Residue in CYP4A1 for Substrate Binding: Bacterial Expression and Mutagenesis
M.Q. Fan, C.A. Laughton, V. Holmes, P.N. Shaw, D.A. Barrett, David R. Bell (Nottingham, UK) 60
Hepatic Ethanol Toxicity: an Investigation into the Protective Effects of Garlic In Vivo
N.J. Smith, C.J. Reed, D. Billington, K.A. Zuzel (Liverpool, UK). 61
Interindividual Variability in the Percutaneous Penetration of Testosterone Through Human Skin In Vitro
F.W. Lee, L. Earl, F.M. Williams (Newcastle, UK; Bedfordshire, UK) 63
The Role of PPARα in the Mechanism of Action of the Hypolipidaemic Effect of Dietary Fish Oils
P.N. Clarke, G.M. Benson, D.R. Smith, A. Salter, D.R. Bell (Essex, UK; Nottingham, UK;). 64
The Effects of Peroxisomal Proliferators in Hamster
S.S.Chahal, D.R. Bell, A. Salter, D. Barratt, M. Bruce (University Park, UK). 64

Poster Abstracts
Chemical Mechanisms of Aldehyde Sensitisation
D.C. Hinselwood, C.K. Smith, S.A.M. Hotchkiss (London, UK; Shambrook, UK) 65
Transcript Profiling of Allergen-Activated Murine Lymph Node Cells (LNC) Following Topical Exposure to a Contact Sensitiser
C.J. Betts, C. Sellick, M. Cumberbatch, J.G. Moggs, G. Orphanides, R.J. Dearman, I. Kimber (Cheshire, UK) 66
Differential IgE Antibody Production Induced by Food Proteins: Dose Response Studies in Mice
R.J. Dearman, H. Caddick, S. Stone, D.A. Basketter, I. Kimber (Cheshire, UK; Sharnbrook, UK) 67
Treatment of Mice with Peanut Protein Provokes a Type 2 Cytokine Phenotype
I. Kimber, H. Caddick, C.J. Betts, R.J. Dearman (Cheshire, UK) 68
Assessment of Survival of Hsd:Sprague Dawley™ SD™, Hsd:BrlHan:WIST and Crl:CD®(SD) IGS BR Rats over 104 Weeks
Lorraine Britton, Rosemary Hill, David Mitchell (Herefordshire, UK) 69
Findings in Rat Teeth from a 6-Month Oral Toxicity Study
Mark Hankin, Probash Chowdhury, Ann Williams (Hertfordshire, UK) 70
An Assessment of Models for Chemical Solubility in Tissues, Tissue–Air and Tissue–Blood Partition Coefficients
M.P. Payne (Sheffield, UK) 72
Prioritising Environmental Chemicals for Human Health Risk Assessment
Joanne Hughes, Carol Courage, Alex Capleton, Raquel Duarte-Davidson (Leicester, UK). 73
Exposure to UVB Radiation Does not Directly Impair Skin Barrier Function
C.H. Dalton, R.P. Chilcott (Wiltshire, UK) 74
Study in the Mouse to Investigate the use of Flow Cytometry in Detecting Bone Marrow Toxicity
Richard M. Pendlebury, Alison Richardson, Christine McAlinden, Geoff Brown, Wendy Preston, David R. Lloyd (Birmingham, UK; Herefordshire, UK; Cambridgeshire, UK). 75
Effects of Multiple Doses of Diazinon on Blood and Brain Esterases in the Mouse
A.A. Saati, G.E. de Blaquiere, E. Mutch, F.M. Williams (Newcastle upon Tyne, UK) 78
Reduction of Group Sizes in Reproductive Toxicology Studies
Mike Aylott, Meg Parkinson (Hertfordshire, UK) 79
Evidence of Mating in the Wistar Han Rat
Martine E. Smith, Jacqui A. Piner (Hertfordshire, UK) 80
Sub-Chronic Cadmium Toxicity Following Dietary Manipulation of Methionine
Andrew M. Jenner, Ivan House, Daniel S. Asker, John A. Timbrell (London, UK). 81
The Role of a Liver-Testis Axis in the Development of Leydig Cell Hyperplasia
Michelle D. Coulson, G. Gordon Gibson, Nick Plant, Tim Hammond, Mark Graham (Guildford, UK; Loughborough, UK) 82

The Use of Transgenic Reporter Mice in the Study of Xenoestrogen Effects on Estrogen Receptor-Mediated Gene Expression
T.C. Aldridge, D.K. Tucker, C. Martin[2], S. Naden, L. Vicary, S. Stone, A.N. Brooks, W.D. Pennie, G. Orphanides (Cheshire, UK) 83
Heterocyclic Amines and Human Colon Cancer: Identification of Risk Factors
U. Bhambra, R. Edwards, T. Lightfoot, C. Garner, A. Boobis, N. Gooderham (London, UK; York, UK) 84
Genotype for CYP1A2 and Ah Receptor and Risk of Colorectal Cancer in North East England
Suzanne E. Elcombe, Mark R. Welfare, Ann K. Daly (Newcastle upon Tyne NE2 4HH, UK) 86
Colorectal Cancer Chemoprevention by Curcumin in the APC^{MIN} Mouse: Efficacy and Pharmacokinetics
S. Perkins, R. Verschoyle, K. Hill, C.K. Lim, W. Steward, A. Gescher (Leicester, UK) 87
Expression of NFκB and COX-2 in Human Colorectal Cancer
M. Charalambous, C. Maihoejner, U. Bhambra, T. Lightfoot, N.J. Gooderham (York, UK; London, UK). 88
The Use of Accelerator Mass Spectrometry in Cancer Risk Assessment Following Dietary Exposure to Heterocyclic Amines and Polycyclic Aromatic Hydrocarbons
T.J. Lightfoot, B.C. Cupid, S. Nicholson, S.H. Leveson, D.J. Alexander, R.C. Garner (York, UK) 89
Detection of Tamoxifen DNA and Protein Adducts in Humans and Rats Using the Sensitive Technique of Accelerator Mass Spectrometry
E.A. Martin, M. Gaskell, D.J. Boocock, K.W. Turteltaub, K. Brown, F. Al-Azzawi, I.N.H. White (Livermore, CA, USA; Leicester, UK) 90
Effect of Orally Administered Resveratrol on PhIP-induced Mutation in the Colon of Muta™Mouse Mice
Antony Boyce, Nigel J. Gooderham (South Kensington, UK) 91
Does the Estrogenicity of the Heterocyclic Amine PhIP Contribute to its Genetic Toxicology?
S. Lauber, S. Ali, N.J. Gooderham (London, UK). 92
Induction of Mutations in the pSP189 *Sup*F Gene by α-Acetoxytamoxifen
K.I.E. McLuckie, M.N. Routledge, K. Brown, R.T. Heydon, P.B. Farmer, G.C.K. Roberts, E.A. Martin (Leeds, UK; Livermore, CA, USA; Leicester, UK) 94
Development of A [^{14}C]-Postlabelling Procedure for Trace Detection of DNA Adducts
E.M. Corcoran, R. Jukes, E.A. Martin, P.B. Farmer (Leicester, UK) 95
Quantitation of In Vitro DNA Damage Using the Comet Assay
Emma L. Davis, Ann K. Daly, Faith M. Williams (Newcastle Upon Tyne, UK) 95
DNA-Strand Breaks and Inter-Individual Variation in Human A549 Lung Cells and Peripheral Blood Lymphocytes Exposed to Sodium Dichromate
A.J. Lee, N.J. Hodges, B. Ádáms, J.K. Chipman (Birmingham, UK) 97
Hexavalent Chromium Inhibits Expression of the DNA-Repair Endonuclease 8-Oxo-DNA Glycosylase 1 (*hOGG1*) in Cultured Human A549 Lung Epithelial Cells
N.J. Hodges[1], J.K. Chipman (Birmingham, UK) 98
Modulation of Gap Junction Plaques Containing Cx32 and Cx26 by Non-Genotoxic Carcinogens
A. Mally, C. Cowles, J.K. Chipman (Birmingham, UK). 99
The Use of Apoptosis to Screen for Non-Genotoxic Carcinogens
C.J. O'Neill, G. Brunori, P.J. Bugelski, P.G. Lord, J.J. Lyon, J.C. Holder (Hertfordshire, UK). 100
Monitoring Gene Expression Changes During Apoptosis as a Screen for Tumour Promoting Compounds
S.A. Scollen, J.J. Lyon, B. Bond, P.G. Lord, P.J. Bugelski, K.A. Barne (Hertfordshire, UK) 101
Microarray and Proteomic Analysis of Early Gene Regulation Following Exposure to Skin Irritants
S.T. Fletcher, J.H. Fentem, D.A. Basketter, D.P. Kelsell, M. Philpott, V.A.Baker (London, UK; Sharnbrook, UK). 101
Differential Gene Expression in Xenobiotic-Induced Liver Growth in Rats
S.E. Crunkhorn, N. Plant, G.G. Gibson, P. Lord, K. Kramer (Surrey, UK; Surrey, UK; Surrey, UK; Herfordshire, UK; Surrey, UK) 102
Down-Regulation of Alpha 2u Globulin Synthesis Confounds Elucidation of Chlorinated Paraffin-Induced Nephrocarcinogenicity in Male Fischer-344 Rats
G.D. Warnasuriya, J.R. Foster, B.M. Elcombe, C.R. Elcombe (Dundee, UK; Cheshire, UK) 103
Transcript Profiling of Proliferative and Non-proliferative CYP3A Inducers in Isolated Rat Hepatocytes
James E. Sidaway, Volker Wiesenthal, Jonathan D. Tugwood, Terry C. Orton (Cheshire, UK) 104
Microarray Ananlysis of Gene Expression Changes as a Result of Hepatotoxin Treatment In Vitro
H.M. Harries, C.M. Duggan, V.A. Baker (Bedfordshire, UK) 105

Analysis of Beta-Catenin Gene Mutations and Gene Expression in Liver Tumours Induced by Administration of Phenobarbitone to C57BL/10J Mice
James E. Sidaway, Huw B. Jones, Kassiani Kalaitzi, Johanna M. Loughlin, Graham R. Betton, Sarah Gould, Jonathan D. Tugwood, Terry C. Orton (Cheshire, UK) 106
Quantitative Analysis of PPARα Dependent, Diethylhexylphthalate Induced Alterations in the Mouse Liver Proteome
Neil Macdonald, Robert Tonge, Rachel Rowlinson, Janice Young, Steve Rayner, Stephan Chevalier, Ruth Roberts (Macclesfield, UK; Amboise Cedex, France) 107
S-Phase Measurement in a Range of Species and Tissues: Ideas from a Database
A.R. Soames, J.R. Foster (Macclesfield, UK) 108
Characterisation of Markers of Liver Regeneration in Rats following Partial Hepatectomy using NMR Spectroscopy
M.L. Anthony, K. Kramer, S.C. Connor, S.R. Polley, J.N. Haselden, J.C. Connelly (Hertfordshire, UK) 109
Persistent Cellular Changes in Rat Liver Following Exposure to Furan
J.M. Hitchcock, K.C. Hickling, J.K. Chipman, R. Coleman, J.G. Evans, T.G. Hammond (Birmingham, UK; Loughborough, UK) 110
Cell Metaplasia and Altered Cell–Cell and Cell–Matrix Interactions in Rat Liver Following Oral Administration of Furan
K.C. Hickling, J.M. Hitchcock, J.K. Chipman, J.G. Evans, T.G. Hammond (Loughborough, UK; Birmingham, UK; Birmingham, UK; Loughborough, UK; Loughborough, UK) 110
Protection Against Paracetamol-Induced Hepatotoxicity in Mice by the α_1-Adrenoceptor Antagonist Prazosin: Possible Role for Anti-Oxidant Proteins
Yuri N. Clement, Neil R. Kitteringham, B. Kevin Park (Liverpool, UK) 111
Liver Apoptosis by Paracetamol (Acetaminophen) is Mediated by Mitochondria
Hasan El-Hassan, Patricia Macanas-Pirard, Khurshid Anwar, Pauline C. Rhodes, Shirley C. Price, Richard H. Hinton, George E.N. Kass (Guildford, UK; Hertfordshire, UK) 112
The Use of Monochlorobimane and Confocal Laser Scanning Microscopy to Measure the Intracellular Distribution of Reduced Glutathione in Rat Hepatocytes
D. Stevenson, D. Wokosin, J. Girkin, M.H. Grant (Glasgow, UK) 114
Effect of Pre-Treatment with Aged Garlic Extract and Its Major Organosulphur Constituent *S*-Allyl Cysteine on Bromobenzene-Induced Hepatotoxicity
N.J. Smith, E. Hemers, C.J. Reed, D. Billington, K.A. Zuzel (Liverpool, UK) 115
Hepatic Ethanol Toxicity: Investigation of an In Vitro model
N.J. Smith, C.J. Reed, D. Billington and K.A. Zuzel (Liverpool, UK) 116
Dermal Absorption of Pyridine and Some Methyl Pyridines In Vitro
S.C. Wilkinson, F.M. Williams (Newcastle upon Tyne, UK) 118
Glutathione Reductase Reduces Chromium VI to Cytotoxic Metabolites in Isolated Rat Hepatocytes
M. Gunaratnam, M.H. Grant (Glasgow, UK) 119
Culture of Hepatocytes on Biodegradable Polymer Scaffolds for Use in Toxicology Studies
Martin J. Whitaker, Mike S. Watson, Steven M. Howdle, Kathryn T. Byrne, Rena N.B. Bhandari, Kevin M. Shakesheff (Nottingham, UK) 120
Maintaining In Vitro Functionality of Hepatocyte Cultures
Lisa A. Riccalton-Banks, Rena N.B. Bhandari, Jeffery R. Fry, Kevin M. Shakesheff (Nottingham, UK) 122
Early Markers of Toxicity Following Administration of Platinum Compounds to Rat Proximal Tubular Cell Cultures
R Wainford, G. Descotes, G. Hawksworth (Aberdeen, UK; Courbevoie Cedex, France) 123
Foetal Rat Lung Epithelial (FRLE) Cells Do Not Readily Undergo Apoptosis in Response to Etoposide or Hydrogen Peroxide
K. Ridd, D.J. Alexander, C.J Reed (Liverpool, UK; Hertfordshire, UK) 124
Foetal Rat Lung Epithelial (FRLE) Cells: Characterisation and Response to Model Pulmonary Toxins
K. Ridd, D.J. Alexander, C.J Reed (Liverpool, UK; Hertfordshire, UK) 125
The Aqueous Extract of *Cryptolepis sanguinolenta*, a West African Herbal Medicine, is Cytotoxic
Charles Ansah, Nigel J. Gooderham (London, UK) 126
The Role of AIP in Aryl Hydrocarbon Receptor Signalling
David R. Bell, Alan Poland (Nottingham, UK; Morgantown, WV, USA) 127
Investigation of Host Cell Effects on Xenobiotic Induction of CYP3A
Karen E. Swales, Nick Plant, Gordon Gibson, Andrew Ayrton (Guildford, UK; Welwyn, UK) 128
Mapping of Protein–DNA Interactions in the *CYP3A4* Proximal Promoter
Vincent Bombail, Nick Plant, Gordon Gibson (Guildford, UK) 129

Investigation of Sex-Related Differences in Endogenous Urinary Metabolite Profiles Using Metabonomic and Hyphenated HPLC-MS Techniques
Elizabeth G. Stanley, Nigel J.C. Bailey, Andrew W. Nicholls, Catherine J. Waterfield, John N. Haselden, Jeremy K. Nicholson (Hertfordshire, UK; London, UK) 130
Variation in Plasma Samples from Rats: Optimisation of Collection and Storage of Plasma for ^{1}H NMR Spectroscopic Analysis in Toxicology Studies
Stephanie Deprez, Catherine J. Waterfield (Herts, UK) 131
Clozapine Undergoes Organ-Specific Bioactivation and Protein Binding: Toxicological Implications
Charles O'Donnell, Dominic Williams, Munir Pirmohamed, B. Kevin Park (Liverpool, UK) 132
Selective Inhibition of Δ^{9}-Tetrahydrocannabinol Metabolite Formation by Cannabidiol In Vitro
Karen McArdle, Peter Mackie, Roger Pertwee, Geoffrey Guy, Brian Whittle, Gabrielle Hawksworth (Aberdeen, UK; Wiltshire, UK) 133
Differential Inhibition of CYP2C8-dependent Activity by Flavone and Flavonone Analogues
R.M. Devereux, G.A. Cameron, B.C. Jones, D.A. Smith, G.M. Hawksworth (Kent, UK; Aberdeen, UK) 134
The Metabolism of the Antitussive Pholcodine in Isolated Rat Hepatocytes: Identification of a Novel Metabolite and Toxicological Implications
Mark Jairaj, David G. Watson, Graham G. Skellern, M.Helen Grant (Glasgow, UK) 135

Contents of Volume 168 No. 2

Multicenter field trial on possible health effects of toluene: I. Toluene body burdens in workers of the rotogravure industry D. Neubert, G. Bochert, C. Gericke, B. Hanke, G. Beckmann, Toluene Field Study Group (Germany) . . 139–157
Multicenter field trial on possible health effects of toluene. II. Cross-sectional evaluation of acute low-level exposure D. Neubert, C. Gericke, B. Hanke, G. Beckmann, M.M. Baltes, K.-P. Kühl, G. Bochert, J. Hartmann, Toluene Field Study Group (Germany) 159–183
Multicenter field trial on possible health effects of toluene: III. Evaluation of effects after long-term exposure C. Gericke, B. Hanke, G. Beckmann, M.M. Baltes, K.-P. Kühl, D. Neubert, Toluene Field Study Group (Germany) 185–209

Contents of Volume 168 No. 3

Short communication

Enzymatic methylation of arsenic compounds. IX. Liver arsenite methyltransferase and arsenate reductase activities in primates
E. Wildfang, T.R. Radabaugh, H. Vasken Aposhian (USA) 213–221

Articles

Release of iron from ferritin by metabolites of benzene and superoxide radical generating agents
R. Agrawal, P.K. Sharma, G.S. Rao (India) 223–230
Camelliin B induced apoptosis in HeLa cell line
C.-C. Wang, L.-G. Chen, L.-L. Yang (Taiwan, ROC) 231–240
Role of stereochemistry in *N*-(3,5-dichlorophenyl)-2-hydroxysuccinamic acid (2-NDHSA) nephrotoxicity G.O. Rankin, H. Sun, D.K. Anestis, O. Noe II, J.G. Ball, M.A. Valentovic, P.I. Brown, J.L. Hubbard (USA) 241–250
Characterisation of polymeric surfactants that are glutathione transferase mimics
R. Svensson, V. Pamedytytė, J. Juodaitytė, R. Makuška, R. Morgenstern (Sweden, Lithuania) 251–258
Comparison of *cytochrome P*450 2*A*6 polymorphism frequencies in Caucasians and African-Americans using a new one-step PCR-RFLP genotyping method T. Paschke, M. Riefler, A. Schuler-Metz, L. Wolz, G. Scherer, C.M. McBride, G. Bepler (Germany, USA). 259–268
Antimutagenic effect of black tea extract using 'rodent dominant lethal mutation assay'
Y. Shukla, P. Taneja (India). 269–274
Author index. 275
Subject index. 277–278
Contents of volume 279–284
